Subject: Please Eliminate the Bad APS Proposals

Apr 27, 2017

Chairman Tom Forese
1200 W. Washington
Phoenix, AZ 85007

Dear Chairman Forese,

I am contacting you today about APSs' proposal to raise residential electric rates, increase the fixed service charge on many monthly electric bills, and to restrict the choice of rate plans to new customers.

Nearly doubling the fixed charge on many monthly electric bills is not fair. Those customers on a Basic Rate Plan will have to pay this increase even before turning on a light switch and no matter how much energy is used in their home. That's just not right. Customers should pay for how much electricity they use - not big fixed charges.

APS offering only two rate plans for those signing up for service is not right either. New customers should get to choose among all the current plans which are best for them. Arizona families know what they can afford - APS should not get to make the choice for them by offering only two plans. That's not right either.

Raising rates an average of \$72 a year can create hardship. Many are on fixed incomes.

It is very important people be able to control the amount of their monthly electric bill. Big fixed charges restrict customer control to less of the bill.

Please change these bad proposals. Arizonans should pay only what is fair and necessary for electricity and not one cent more.

Thank you,

Mrs. Sharon Davis
